DIEGO REZENDE SANTOS DE MOURA

diegorezm.app | **diegommrez12@gmail.com** | **linkedin.com/in/diegorezm** | **github.com/diegorezm**

Objective

Full Stack Developer focused on PHP, Java, and JavaScript/TypeScript. Seeking opportunities to apply and expand my knowledge, contributing to innovative and challenging projects, enhancing technical solutions, and collaborating with teams.

Education

UNITAU - Taubaté, SP

Systems Analysis and Development
January 2023 - December 2025

Technical Skills

- **Programming Languages**: Java, JavaScript/TypeScript, Python, PHP
- **Frameworks**: Spring Boot, Next.js, React, Svelte, Laravel
- **Databases**: PostgreSQL, MySQL, SQLite, MongoDB
- **Tools**: Git, Docker, Node.js, Tailwind CSS, CI/CD (GitHub Actions)
- **Markup**: HTML, CSS, Markdown

Experience

Scientific Research - Oral Biopathology

UNITAU, Taubaté, SP 2024

- Data analysis and visualization generation using Python libraries like Matplotlib to support academic research and data-driven decision-making.

Soldier

Brazilian Army, Pindamonhangaba, SP March 2022 - January 2023

- Responsible for the security and guarding of military facilities.
- Team collaboration for the execution of missions and tasks.
- Rigorous access control at military checkpoints.
- Recognized with an honor certificate for exemplary performance.

Projects

Clinica Integrada Amaral Haga (Clinic Management System)

GitHub

PHP, Laravel, Livewire, Alpine.js, MySQL

- Developed a robust backend system with Laravel for managing patient, doctor, and appointment records.
- Complete CRUD functionality, allowing efficient creation, editing, viewing, and deletion of clinical records.
- Automatic verification of doctor availability, facilitating scheduling and organization of appointments.
- Interactive and responsive user interface built with Alpine.js and Livewire.
- Integration with MySQL database for secure and structured information storage.
- Full deployment on Hostinger, ensuring stability and online system accessibility.
- Modular architecture, enabling easy expansion and customization to meet specific clinic demands.

Certifications

- **English Proficiency Certificate - EF SET**
- **JavaScript and TypeScript from Basic to Advanced - Udemy**
- **Data Structures and Algorithms - Udemy**
- **Excel 40 Hours - Curso em Vídeo**
